Background

The federal Preventive Health and Health Services (PHHS) Block Grant provides funding to address health problems, prevent diseases and promote health in Wisconsin. In 2020, Wisconsin will receive approximately \$3 million through this grant to fund health programs statewide.

PHHS Block Grant funds enable Wisconsin to provide flexible funding to address the highest priority health issues in communities. Funds are provided to the State's 86 local health departments and 11 tribal health agencies.

The PHHS Block Grant supports capacity building and core service development in various areas. Prevention funds can augment limited categorical program funds at the state or local level.

Funding Per Tribe or Generalized Funding Statement

For 2021, \$55,000 is allocated directly to tribal contracts from Wisconsin's PHHS Block Grant funding. That amount is divided equally to total \$5,000 per tribe.

Scope of Work Summary

The PHHS Block Grant gives grantees the flexibility to prioritize the use of funds to:

- ☐ Address emerging health issues and gaps.
- ☐ Decrease premature death and disabilities by focusing on the leading preventable risk factors.
- ☐ Work to achieve health equity and eliminate health disparities by addressing the social determinants of health.
- ☐ Support local programs to achieve healthy communities.
- ☐ Establish data and surveillance systems to monitor the health status of targeted populations.
- ☐ Improve infrastructure, build capacity, and achieve accreditation through implementation of effective programmatic and administrative areas central to the health department's objectives.

Success is achieved by:

- ☐ Using evidence-based methods and interventions.
- ☐ Reducing risk factors.
- ☐ Establishing policy, social, and environmental changes.
- ☐ Leveraging other funds.
- ☐ Continuing to monitor progress towards selected outcomes and re-evaluate funded activities.
- ☐ Reflecting Healthy People 2020, Healthiest Wisconsin 2020, and Healthy Wisconsin objectives in project objectives.
